AUSTIN PHYSICIAN SHOT CITY MANAGER AND LATER SUICIDED

TROUBLE LEADING TO SHOOT-
ING CLAIMED BE UNKNOWN
MONDAY AFTERNOON

By Associated Press.
Austin, Texas, March 14.—Less than five hours after he had shot and seriously wounded Adam R. Johnson, Austin City Manager, Dr. C. W. Goddard, city physician, killed himself in a city jail cell late today by slashing his throat and wrists with a small pocket knife.

While a coroner returned a verdict of suicide City Manager Johnson lay in a hospital, victim of Goddard's pistol bullets in an encounter at the city hall this morning. Johnson may recover. The cause of the trouble is not known.

Story of Shooting.

By Associated Press.
Austin, Texas, March 14.—City Manager Adam R. Johnson of Austin was shot down in his office at 10:30 this morning. He is in a serious condition.

Dr. C. W. Goddard, city health officer, was arrested immediately afterward by City Marshal J. N. Littlepage. No charge had been filed. He was arrested in the hall a few feet from Johnson's office.

Johnson was taken to Seton Infirmary, where an examination has not been completed. Johnson was a former member of the State Board of Control.

Johnson was shot five times, police said, three times in the chest, once in the finger and once in the shoulder. Physicians said he has a reasonable chance of recovery. Officers said filing of charges in the case was being delayed pending ascertainment of the gravity of Johnson's condition.

City Marshal Littlepage said Johnson described the shooting to him in this manner: "I was sitting at my desk at work. Dr. Goddard came in and handed me a slip of paper. 'You'll have to see Mr. Palmer, the sanitary engineer about this,' he told him."

"Then the shooting began."

Dr. Goddard in his cell at the city jail apparently was calm.

After telling newspaper men, "I'm glad you came up," he said, "I have nothing to say at this time."

By Associated Press.
San Marcos, Texas, March 14.—Rebecca Bradley Rogers, 21, former Texas University co-ed, charged with robbing a bank, today refused to sign a motion for continuance drafted by her attorneys, indicating she wishes immediate trial.

No action had been taken on the continuance motion when court recessed at noon, until 1:30 p. m. Mrs. Rogers refused to sign the motion for continuance, but John D. Coffey, one of her attorneys, signed it for her.

The court started hearing on the motion at 1:30. Continuance was sought on the ground that Otis Rogers, the young woman's husband, is seriously ill.

BITTER FEELING IN EVIDENCE TODAY IN HOUSE OVER BILL

DOUBT IF SUFFICIENT NUM-
BER VOTES CAN BE MUSTER-
ED TO PUT BILL THROUGH

By Associated Press.
Austin, Texas, March 14.—Amid bitter feeling and strife, the House today engrossed the Love Senate bill to repeal amnesty granted former Governor James E. Ferguson by the 29th Legislature, but failed to muster strength necessary for suspension of the rules to put the bill on final passage. Engrossment vote was 50 to 24.

An attempt to cut off debate shortly after Representative Minor of Denton called the bill up provoked strenuous protest and the House finally voted to rescind its action in ordering the previous question.

During the ensuing debate, Minor charged that Texas "has been made the laughing stock of the nation" by the amnesty bill. He said the Love bill ought to be passed as a "matter of public policy."

Representative Story of Vernon declared that passage of the bill would stir up old political strife and pleaded with the House to "ignore this measure with the silence it so rightly deserves." There is some doubt as to whether the bill can be forced to a vote on final passage before the end of the session Wednesday noon.

Taking the floor on a plea of "personal privilege," Representative Woodall of Marshall charged that the amnesty bill was being "railroaded" through by the most "damnable procedure that ever disgraced the state."

"It's just a case of 'minority be damned,'" Woodall shouted.

Senate Approves Borger School Funds

By Associated Press.
Austin, Texas, March 14.—Additional funds for the school district at Borger were approved by the Senate today.

The bill, which has already passed the House, provides that a reapportionment may be made for that county which will give the common school district there an additional \$70,000 to complete the school year.

Propaganda Ruled Out of Senate

By Associated Press.
Austin, Texas, March 14.—Efforts to have hundreds of petitions and telegrams to Senators for and against the tobacco tax read to the Senate failed today when Lieut. Governor Barry Miller ruled that they could not be read without a vote of the Senate.

The tobacco tax bill is now behind 38 other House bills on the Senate calendar, but its friends say they have sufficient votes to take it up out of its order.

Fate of Motor Bus Bill in Balance

By Associated Press.
Austin, Texas, March 14.—The fate of the Beck motor bus bill hung in the balance today when the Senate debated the question of accepting the report of a free conference committee which tried to compromise the differences of the House and Senate.

The noon recess interrupted de-

REBECCA ROGERS COUNSEL REQUESTS PASSING OF CASE

By Associated Press.
San Marcos, Texas, March 14.—Rebecca Bradley Rogers, 21, former Texas University co-ed, charged with robbing a bank, today refused to sign a motion for continuance drafted by her attorneys, indicating she wishes immediate trial.

No action had been taken on the continuance motion when court recessed at noon, until 1:30 p. m. Mrs. Rogers refused to sign the motion for continuance, but John D. Coffey, one of her attorneys, signed it for her.

The court started hearing on the motion at 1:30. Continuance was sought on the ground that Otis Rogers, the young woman's husband, is seriously ill.

An Ounce of Prevention

The safest cure and prevention for an emergency which may occur suddenly and unexpectedly, is to build up a bank account.

This same bank balance will find you ready, in the event that opportunity knocks at your door.

bate with several Senators indicating that they wanted to speak before a vote was taken. Senator Holbrook of Galveston indicated that he would move to recommit the bill to another conference.

Tax Remissionists Won Senate Victory

By Associated Press.
Austin, Texas, March 14.—Tax remission advocates won a victory in the Senate today when they succeeded in passing to third reading a resolution by Senator Love of Dallas calling for a referendum on the question of validating tax remission for flood control.

Committee to Tour Waters.

By Associated Press.
Austin, Texas, March 14.—The House Game and Fisheries Committee was authorized in a resolution adopted today to make a tour of the Texas tidal waters with a view of recommending fish legislation for enactment at the special session of the Legislature to be called in about a month.

TENTATIVE PLANS FOR EXPLOITING OF TEXAS' RESOURCES

By Associated Press.
Dallas, Texas, March 14.—Tentative plans for an all-Texas special train to carry to the North and East in an emphatic manner some idea of the immense resources of the state and its potentialities were announced today at a meeting of the board of directors of the Texas Daily Press League. More definite plans such as choosing the date for the trip and itinerary will be worked out at a meeting open to all parties interested to be held in Dallas March 28.

In announcing the scheme the directors said: "This action follows closely the success attended the recent co-operative effort of the League in which some 350 full pages of newspaper advertisements were published setting forth Texas prosperity and opportunities and which advertising created considerable favorable

comment in Texas and throughout the United States. This movement, adding as it did, to increasing the widespread interest in the undeveloped resources of Texas and giving added momentum to the trend toward the state as a seat of a new manufacturing area, led the organization to feel that the time is now opportune for concerted action and to this end all interested parties throughout Texas will be called to a conference to be held in Dallas March 28 to complete the details of the 'All Texas Special'."

Many States to Be Visited.
If the tentative plans materialize stops of the train will be made at St. Louis, Chicago, Milwaukee, Detroit, Toledo, Cleveland, Cincinnati, New York, Boston, Philadelphia, Baltimore, Washington, Memphis, Atlanta and New Orleans.

Until permanent organization is perfected the details will be in the hands of S. W. Pappert of Dallas. The trip probably will start about the middle of May.

Invitations to join with the League will be issued to the East Texas, West Texas and South Texas Chamber of Commerce and other

League who are back of the movement are: S. W. Pappert, president; J. Lee Greer, Denison Herald, chairman of the board; Lowry Martin, Corsicana Sun, Secretary; A. G. Mayes, Sherman Democrat; Houston Harter, San Angelo Standard; Bernard Hanks, Abilene Reporter and News; D. W. Stevick, Texarkana Gazette and News; Wilbur C. Hawk, Amarillo Globe and News; and W. C. Edwards, Denton Record-Chronicle.

CARD OF THANKS

We wish to express our heartfelt appreciation and thanks to Dr. T. A. Miller and our many kind friends for their untiring devotion to us during the sickness and death of our brother and uncle, H. N. Rascoe, and for the beautiful floral offerings which proved that they were indeed true friends in time of need. May God's richest blessings rest on each and every one of them as our every prayer.

Mr. and Mrs. J. T. Rascoe and Children.

SPRING FEVER TIME.

Have you noticed your annual
attack of spring fever coming on
yet? Watch for the symptoms.
Scientists never have been able
to agree on exactly what causes
spring fever.

Some say it's lethargic drows-
iness, caused by the body elimi-
nating poisons accumulated dur-
ing the physical inaction of winter.
Help the elimination by taking
long walks, breathing deeply of
the fragrant spring air, or starting
a garden.

Another theory about spring
fever is that it's a reaction from
winter, first warm weather making
us droop into the sluggishness of
the tropics, home of our prehistoric
ancestors.

Maybe, too, it's an inheritance
from the times when the cave man,
after a long and monotonous win-
ter in his den, strolled out to bask
lazily in the warm spring sun-
light.

Odd thing is temperature, regu-
lator of the amount of energy
your body generates.

Hard to work at all on a hot
summer day. Rainy weather, also,
makes folks sluggish and drowsy.

At sixty to sixty-five degrees, we
do our best physical and brain work
and are healthiest. That's why the
temperature of a house, office or
workroom never should go above
sixty-five in the winter.

Sap starts rising in the trees.
Grass sprouts green. Plant life
buds. Chirping birds pour out
their way North. The ice goes out,
fish run on the surface. The bear
leaves his den. Timber wolves
stop running in packs and mate.

That is spring—the sunrise of a
new period of life.

The backyard gardener stirs.
Farmer whistles in the fields. Golf
bug smacks his lips. Fisherman
goes over his tackle. Small boys
swarm with marbles, baseballs,
kites.

Spring is the time to take a new
lease on life, to get a fresh start.
Fill your lungs with fresh air and
go to it.

"WHAT STATE HIGHWAYS CAN DO"

A good roads program for Na-
varro county is now foremost in the
minds of most of the residents of
Navarro county and anything to be
aid in connection with good roads
is of general interest. A plan,
agreeable to all concerned, is be-
ing worked out, and is making ex-
cellent headway, whereby Navarro
county is going to get a system of
hard surfaced highways. This
plan, it is hoped, will be presented
to the voters of the county at an
early date.

In a recent issue of the Ameri-
can Review of Reviews there ap-
peared an article "What State
Highways Can Do" in which the
\$125,000,000 road campaign in
North Carolina is discussed to
some extent. The article, in part
is as follows:

"During the last five years \$125-
000,000 worth of State highways
have been built throughout the
State of North Carolina, and during
the same period, so Mr. Frank
Page, chairman of the North Caro-
lina State Highway Commission,
tells us in Public Roads, a journal
of highway research published by
the U. S. Department of Agricul-
ture, the State has probably made
greater progress agriculturally, in-
dustrially, and socially, than any
other in the Union in a similar
period of time.

"Mr. Page presents an amazing
array of statistics to support his
statements. The number of farms
in the State has been increased by
13,000 when the number of farms
for the country as a whole has fal-
len off. Rural schools have been
built at a cost of \$35,000,000 to
which the children are brought by
2,000 buses operating largely on

the new roads. Forty co-operative
farm marketing associations have
come into being, and by means of
the roads, making accessible the
trunk line railways and the main
waterways, hundreds of carloads of
poultry, eggs, fruit and vegetables
never shipped out of the region be-
fore have been sent all over the
country. Roadside and city mar-
kets have stimulated the produc-
tion of truck produce along with
tobacco or cotton crops. The wo-
men of the farm are usually in
charge of these, and they invest
the money thus earned in conveni-
ences for their homes, for clothes
and other things which indicate a
higher standard of living. Certain
lost provinces, inaccessible by high-
way, to which the most roundabout
journeys through neighboring
states had formerly to be taken,
have been recovered.

"North Carolina is predominately
agricultural, and the manufacturing
centered in the Piedmont section
around Durham, Greensboro, Char-
lotte, and Raleigh is dependent up-
on the agricultural region; lumber
for furniture factories, cotton for
cotton mills, and tobacco for the
great Durham and Winston-Salem
factories can now be far more ex-
pediently and cheaply shipped
from rural sections to the cities.
"Mr. Page gives in detail the facts
of increase in number of crops due
to the new practicability of truck-
ing; of the new interest in dairying
which he traces directly to the
highway improvement. An in-
crease of 250 per cent in the
amount of milk now trucked to the
cities of the State is frequent.
Seven milk plants have been es-
tablished since 1921. Cucumbers,
peaches, strawberries and potatoes
are shipped out of the State in
quantities nearly four times as
great as those of five years ago.
The over-production of cotton and
its attendant evils are only to be
met by more diversification of
crops, agricultural experts have
informed the South. In North Caro-
lina, aided by the roads to a sur-
prising extent, such varied farm-
ing is well under way."

RICHER AND POORER

Throughout the centuries of ad-
vancing civilization apostles of
unrest have rung the changes on
the assertion that "the rich are
getting richer and the poor poorer."
There have been alternating peri-
ods of expansion and contraction.
In good times all shared in the
prosperity while in bad times the
poor suffered greatly. But the
movement as a whole has been
persistently toward improvement.

The rich have got richer, and the
number of rich or moderately well
to do has increased enormously,
but that the poor have grown
poorer is not true. It is impossible
for wealth to increase without the
benefits being distributed to every
stratum of society. For proof one
has but to look around him.
In the seventeenth century in
England the accumulation of wealth
was as noticeable as has been the
accumulation in the United States
in the last few years. The rich
got very much richer in that time,
but the number of people with es-
tates increased by leaps and bounds
these rising from the ranks of the
poor, while the condition of the
latter class vastly improved as was
shown by their ability to gratify
ambitions of a lifetime wholly out
of their reach.

And today the betterment of con-
dition of all classes of society as
evidenced by ability to gratify ma-
terial desires is far greater than
350 years ago, or 10 years ago.

Harry Daugherty's counsel told
a Federal jury in New York his
client would drop dead if he were
convicted, and so would several
skeptics who have been following
this and similar proceedings.

Our private view is that anyone
turning up now with a hitherto
unheard-of letter purporting to be
from Mr. Washington to his wife
ought to be held for tampering
with the U. S. mails.

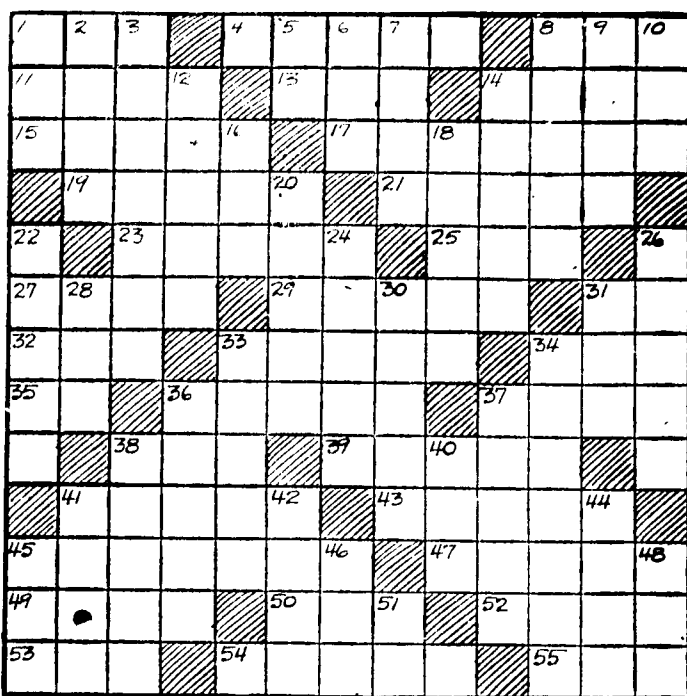

Our first impulsive enthusiasm
over the possibility that Alfonso
of Spain will visit us next year is
tempered somewhat by a dark mis-
giving that it might revive "Vol-
encia."

So few of our large bronze mem-
orials have been erected to men
who had any definite idea whether
a la mode should be managed
with a fork.

Why not a memorial to the in-
known Itacon whose supreme
sacrifice has made the winter safe
for sophomores?

You've noticed that a genius mar-
ries a dumb one. The reason is
that his vanity can't stand compe-
tition.

Today's Cross-Word Puzzle

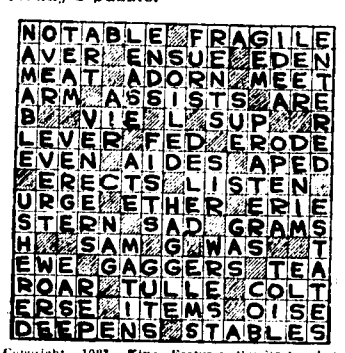

HORIZONTAL.

- 1—obese
- 4—part of an oar

Here I Am!

Now It's Up to You.

I am a baby chick just out of the egg. Nature
has filled my little bread basket with enough
food to last 72 hours. Then it's up to you.

If you feed me dirty mash or table scraps, I'll
probably die.

But if you start me on Purina Chick Startena
and feed me according to the Purina plan, the
chances are nine to one that I'll grow up and
make you money.

Don't feed me anything for 72 hours. Then
start me on Purina Chick Startena, the de-
pendable starting mash containing buttermilk
and cod liver oil.

NAVARRO CO. SHRINE CLUB PLANNING GIVE ENTERTAINMENT SOON

AFFAIR WILL BE HELD AT
BAUM LODGE MONDAY,
APRIL FOURTH

An entertainment will be given
Monday, April 4, at Baum Lodge by
the Navarro County Shrine Club,
according to announcement Sat-
urday. Every member of the
Shrine Club is cordially invited
and expected to be present. The
affair will start at 7 p. m. and the
program is expected to be over by
10 p. m.

Barbecued chicken and all ac-
cessories will be served and an
interesting and pleasing program
is being arranged.

Committees in charge of the af-
fair have been named as follows:
General Arrangement Committee—
Bill Stroube, Lloyd Wheelock,
Henry Walker, Charlie Jester.

Entertainment Committee—
Charlie Jester, Corrie Stroube,
John Calhoun.

Eats Committee—Henry Walker,
Joe E. Butler, D. C. Pinback.

Refreshment Committee—Lloyd
Wheelock, John Murchison, Roy
Nussbaum.

Further announcements in con-
nection with the entertainment
will be made later.

SOUTHERN PACIFIC TO MOVE OFFICES TO HOUSTON EARLY DATE

By Associated Press.

New Orleans, March 11.—The
Southern Pacific Railroad will be
permitted to remove its offices
from New Orleans to Houston,
Texas, under a decision handed
down today by three judges in
Federal Court of the Eastern Dis-
trict of Louisiana. The judges
held the court had no jurisdiction
in the matter.

The court held that the proper
court in which the petition of At-
torney General Percy Saint should
be heard was one of the Federal
Courts in Texas. The Interstate
Commerce Commission already had
granted permission to the South-
ern Pacific to remove its offices
and it was expected the removal
would be made before the case
could be transferred to Texas
courts.

The fight to retain the offices in
New Orleans started some time
ago after the lease of five Louisi-
ana railroads to the Texas & New
Orleans Railroad Company, a sub-
sidiary of the Southern Pacific
with headquarters in Texas.

COURT HOUSE NEWS.

From Saturday's Daily:
District Court.
Injunctions style the State of Tex-
as vs. Rich Steele, Abe Levine and
E. F. Watson, restraining and en-
joining defendants from operating
domino halls in Corsicana and Na-
varro county in alleged violation
of the laws were granted by Dis-
trict Judge Hawkins Scarborough. The
injunction proceedings were filed
late Friday by County Attorney Le-
grand J. Woods. The petitions al-
leged that the domino halls, re-
ferred to were being operated as
gaming places and also places at
which intoxicating liquors were
available.

District Clerk's Office.
The following cases were filed:
Oil City Iron Works vs. Star
Production Company, injunction,
seeking to restrain and enjoin de-
fendant company from operating or
removing certain machinery on the
Bradley lease.

The State of Texas vs. E. F. Wat-
son, injunction.
The State of Texas vs. Abe Le-
vine, injunction.
The State of Texas vs. Rich
Steele, injunction.

Sheriff's Office.
Deputy Sheriff Jess Speed went
to Rusk Saturday to place a negro
adjudged of unsound mind in the
asylum there.

Warranty Deeds.
Finny J. Overton, et al. to Mrs.
Alice Nelson, 8.2 acres of the E.
Melton survey, \$5 and other consid-
erations.

Henry Overton, et al. to Finny
J. Overton, 8.2 acres of the E. Mel-
ton survey, \$5 and other consid-
erations.

Finny J. Overton, et al. to Henry
Overton, 8.2 acres of the E. Melton
survey, \$5 and other considerations.

Assignments.
Robert D. Goodrich to Sinclair
Oil and Gas Company, 31.8 acres of
the James A. Johnson survey, \$1
and other considerations.

Robert D. Goodrich to Sinclair Oil
and Gas Company, 54.17 acres of
the Wm. Bartel survey, \$1 and other
considerations.

Alexander & Lyles, Inc. to Sin-
clair Oil and Gas Company, 20
acres of the James A. Johnson and
J. H. Robinson survey, \$1 and other
considerations.

ONE IN TEN.
Neglecting a little wound, cut
or abrasion of the flesh may in
nine cases out of ten cause no
great suffering or inconvenience
but it is the one case in ten that
causes blood poisoning, lockjaw or
a chronic festering sore. The
cheapest, safest and best course is
to disinfect the wound with liquid
Borzone and apply the Borzone
Powder to complete the healing
process. Price (liquid) 30c, 60c
and \$1.20. Powder 30c and 60c.
Sold by Lee Drug Company.

WAXAHACHIE CLUB DEFEATED KERENS FRIDAY AFTERNOON

Special to the Sun.

Kerens, Texas, March 12.—The
Waxahachie high school Indians
tossed out the fighting Kerens Bob-
cats here Friday afternoon 7 to 6
in a 10-inning contest which was
a thriller throughout and which was
witnessed by a huge crowd. Coach
A. A. Scott, "The Billy Disch of
High Schools in Texas," declared
that the game here Friday after-

noon was the hardest game played
by his team since 1924. The winning
run in the tenth was made by a sac-
rifice bunt that sent a runner to
second and a long slide that en-
abled the runner to score.

With this victory, the Indians
brought their consecutive victories
to fifty-three, not having tasted a
defeat since mid-season, 1924.

Batteries—Waxahachie, Ingle,
Bean and Baker; Kerens—Dobbs and
Seale.

Waxahachie recently defeated
Kerens in Waxahachie.

This Little Shetland Pony Will Be Given
Away to Some Boy or Girl

Attention, Boys and Girls!

The picture above is the exact reproduction of a pretty little shetland pony that will be given away to some boy or girl under twelve years of age.

With every twenty-five cent purchase an opportunity will be given whereby the pony can be secured.

Drop in and see the little pony and get full particulars about how to get him.

There will also be a second prize of a five-pound box of candy for the little girls. Ask us about it.

ANOTHER FLORIDA BANK FAILS OPEN DOORS FOR BUSINESS

LAKE WORTH IS NOW WITH- OUT ANY BANKING INSTITU- TION AS RESULT

By Associated Press.
West Palm Beach, Fla., March 14.—The First National Bank of Lake Worth failed to open for business today. This leaves no banking institution in Lake Worth, the First Bank and Trust Company having closed on February 23.

The Farmers' Bank and Trust Company, which withstood a run last week when three banks in the resort city closed, announced last night through T. E. Reese, president, the bank would not be open for business today.

The Ocean City Bank of Del Ray also failed to open its doors today. T. C. Hawkins, State bank examiner, is in charge.

NUMBER RAILROADS BE OPERATED UNDER LEASE OF T. AND N. O.

Houston, March 14.—According to announcement here the railroad properties of the following companies, effective March 1, will be operated under lease by the Texas and New Orleans Railroad Company.

Morgan's Louisiana & Texas Railroad and Steamship Company, Texas & Vermilion Railroad Company, the Franklin & Abbeville Railroad Company, Louisiana Western Railroad Company, Lake Charles & Northwestern Railroad Company, the Galveston, Harrisburg & San Antonio Railroad Company, Houston & Texas Central Company, the Houston East & West Texas Railroad Company, Southern Pacific Terminal Company, the San Antonio & Aransas Pass Railroad Company.

These companies and the Texas & New Orleans Railroad Company comprise the Southern Texas Lines in Texas and Louisiana.

General offices of the executive, operating, traffic, claim and legal departments will be maintained in Houston and New Orleans, as heretofore, and the personnel and jurisdiction of the departments will be continued without change. The principal offices of the accounting and treasury departments will be located at Houston.

COMMITTEE REPORT ON JUNIOR COLLEGE READY FOR MONDAY

FREE CONFERENCE COMMIT- TEE THRESHES OUT VEX- ING PROBLEMS

Austin, Texas, March 14.—Report of the free conference committee on the junior college bill was made ready Sunday for submission to both houses of the Legislature Monday. The bill, prepared with the assistance of the Attorney General's Department, was signed by Price, Polkard, Moore and Bledsoe for the Senate and Brown, Fly, Holder, Shaver and Snellgrove for the House.

The conference substitute, which rewrites the whole measure, provides for the organization of independent school districts or cities with control of schools into junior college districts, provided, however, they have values taxable for school purposes of \$12,000,000 and not less than 400 high school scholars. Any county or combination of districts with \$18,000,000 value and 500 such scholars may organize into a junior college district.

The district is under direct control of a board of trustees of three members with two-year terms, three to be elected one year and two the next. Any independent district or city organized into a junior college district has authority vested in the governing body of the city or the board of trustees of the district.

May Annex to College District.—With approval of the district, a majority vote of a school district may cause annexation to a junior college district less than a county.

Available exceptions, may not be used for the junior college, subject to misdemeanor penalty for violations. Boards of trustees of the junior college district and any independent district within it may,

by agreement, provide for use of the high school building and equipment as part of the junior college and may provide for an interchange of faculty, but no agreement may be made which will interfere with training of the high school. Municipal junior colleges are validated, but no available school moneys shall be used for maintenance of junior colleges, no State funds and "it is declared the policy of the Legislature that no appropriation shall be made out of fund funds available to it for appropriation to establish, support or maintain junior colleges."

Restrictions of the bill do not affect junior colleges established or for which bonds have been voted. An annual budget must be prepared by the junior college boards of trustees and submitted to the State Department of Education. A 25c limit on taxes is placed, and only such taxes shall be levied as are shown necessary by the budget.

This is the measure that has been before the Legislature during the entire session almost, in committee, and before the body. It looked like easy sailing for a while but then the matter changed and the bill was stalled for the shelf until Messrs. Allison and Fillers, local committeemen of the Chamber of Commerce, went to Austin and smoothed matters out. Another division of opinion came and again Mr. Allison went to Austin. These committeemen and the Chamber of Commerce have been untiring in their work for this measure.

SIGNS YOU CAN BELIEVE IN
If your breath is bad and you have spoils of swimming in the head, poor appetite, constipation and a general no-account feeling it is a sign your liver is torpid. The one really dependable remedy for all disorders in the liver, stomach and bowels is Herbine. It acts powerfully on the liver, strengthens digestion, purifies the bowels and restores a fine feeling of energy, vim and cheerfulness. Price 60c. Sold by Lee Drug Co.

Card of Thanks.
We wish to thank the people of Emhouse who were so kind to us during the sad hours we waited for the arrival of our sister, Mrs. Susie Elliott of Wernert, Texas, who died February 18, also do we thank each one for the beautiful flowers that covered her last resting place. Especially do we thank Brother Marson for the kind words he gave us.
Mrs. Elliott leaves to mourn her death a husband and seven boys. She was a sister of Marshal Allen, Mrs. C. T. Jones, Mrs. E. L. Hill, Mrs. C. D. Shelton all of Emhouse; Mrs. E. R. Collins of Plainview; Tom Allen of Gunter, Texas, and Sallie Durrough of George West, Texas.

"Corsicana Has It."

Hens Need Help to Lay More Eggs

Haphazard feeding of whatever is handy won't supply your hens with the extra elements they need; in fact it does just the opposite. It makes them fat and lazy.

Your hens need a scientifically blended food to supply sufficient protein, etc., necessary to form the additional whites for extra complete eggs.

Feed *Wonder Mash*; it will make your hens lay more eggs, at a greater profit to you and it will keep them healthy.

Order a supply today—you'll get more eggs.

FUNERAL SERVICES HELD FOR GEORGE SMART SATURDAY

Special to the Sun.
Kerens, Texas, March 14.—Funeral services for George A. Smart, were held Saturday afternoon, March 12, at 2 p. m. from the home of his sister, Mrs. A. C. Williamson, with interment in the Kerens cemetery. The services were conducted by Rev. R. E. Bass, pastor of the Kerens Baptist church.

Mr. Smart died suddenly Monday night at his home in Canadian, Texas, and his remains were brought to Kerens Friday evening, and carried to the home of Mrs. Williamson.

The deceased was 52 years of age and was numbered among the most prominent business men of Canadian where he had resided about thirty years. He is survived by a wife, Canadian; two sisters, Mrs. A. C. Williamson, and Mrs. Mary Kimes, and an aunt, Mrs. Anna Owen, Kerens.

In Memory.
Just at four o'clock on the morning of Feb. 22, 1927, D. W. Bennett, a pioneer of Navarro county, passed away. He was 74 years, two months and twelve days old. He is survived by his wife and five sons, all of whom were at his bedside when the end came. He also had fourteen grandchildren and two great-grandchildren.

Mr. Bennett was a member of the Baptist church and had been for many years. He lived a devoted Christian life and was ready to answer the summons when his time came. He was a highly esteemed citizen and neighbor and a kind, loving husband and father. Twenty-five years of his life was spent in the Frost community where he was more commonly known as "Uncle Dan." It was there he reared his family. He had a large number of friends all over the country who were pained to hear of his death. His jovial disposition, sunny smile and words of cheer will be sorely missed by all.

But the one that misses him most of all is the wife-companion that is left behind. They, together, had traveled life's pathway and shared each others burdens for more than fifty years. She has had other loved ones to leave her and felt that no sorrow could be greater, but she now realizes the full depth of sorrow.

ONE WHO LOVED HIM.

In Memory of W. L. Schamerus.

W. L. Schamerus was born May 20, 1847, died Nov. 17, 1927. He was sick only a short while—looked sick one night and died the next evening. It seems so hard for us to have to give him up, yet knew we could not keep him always. It was so hard for us to stand over him and see him suffer and could do nothing for him. Grandpa was never sick much; always had something to say, and had a smile for everybody. He loved his friends. It is so ignominious without him. Only the Lord knows how we miss him from our home. He was always so glad to see his children and grandchildren. Grandpa, you are gone but not forgotten; we think of you every day.

He was laid to rest in the Bazette cemetery under a mound of beautiful flowers. He left to mourn his death four children and nineteen grand children and six great grand children.

Written by his granddaughter, Mrs. Ora Tramel.

In Memory of Mrs. Cora Hagler.
Mrs. Cora Hagler was born Sept. 20, 1891, died in Sept. 1926. It was so hard for her loved ones to give her up. Sometimes we cannot understand why one so young and needed so bad would be taken away. How her dear husband and children will miss her, for she was a good wife and mother. She loved her home and was always willing and ready to anything that needed to be done. She was a faithful Christian, she united with the Providence Baptist church at the age of fourteen. Oh, how we miss her from our homes for she loved her people dearly and they loved her. We ask God to bless that dear mother who has had so much sorrow in the last three. She was laid to rest in the Providence cemetery. Her grave was covered with flowers. She leaves to mourn her death a husband, four children, father, mother, two brothers and two sisters and a mother-in-law and a number of other relatives and friends.

Written by his niece Mrs. Ora Tramel.

Card of Thanks.

We want to express our thanks and appreciation to our neighbors and friends for the kindness shown us during the illness and death of our dear mother, and especially do we thank Dr. Stevens and the pastors of the two churches for their courtesies, also for the beautiful floral offerings. May God's richest blessings rest upon each of you in our prayer.

Her children, A. O. Hargrave, and family, Ben Hargrave, Jim Hargrave.

TARRANT COUNTY AID LOSES FIRST AND OTHERS FOLLOW

By Associated Press.

Austin, Texas, March 12.—Tax diversion in support of the \$18,000,000 Trinity river flood control project in Tarrant county and Dallas county was refused by the House today when it defeated 81 to 47 the Stuart Senate bill to release taxes for 25 years on the Tarrant county end of the acreage affected.

Defeat a few minutes later of the Love Senate bill for Dallas county tax remissions on the same project, followed as a matter of form, since the bills were companions and the same arguments applied to both. Both votes were an attempted encroachment.

The Stuart county flood control remission project likewise fell before sentiment against tax remission, going down to defeat 53 to 47 after a plea by Representative Beck of Fort Worth for the House to consider it a part of the North Texas project.

Love Makes Effort Tax Remission Bill

By Associated Press.

Austin, Texas, March 12.—Efforts to get around the recent ruling of the attorney general that tax remissions are invalid were made on the floor of the Senate today by Senator Love of Dallas, who proposed a constitutional amendment validating such actions.

The amendment would apply particularly to floods and would empower the Legislature to assist local districts by tax remissions, and other methods. The ruling from the attorney general came after the Senate had passed and sent to the House a tax remission for the benefit of residents of the Trinity river valley in Dallas and Tarrant counties.

Another tax remission measure for Taylor county, to enable that county to build roads and a third measure for Starr county for the control of floods also have passed the Senate, but faced defeat in the House.

The Love resolution was referred to the committee on constitutional amendments of which Senator Stuart of Fort Worth is chairman and was reported favorably almost immediately. Even if passed by both houses the proposition requires ratification by a referendum before becoming effective.

GEORGE A. SMART DIED SUDDENLY AT CANADIAN, TEXAS

Special to the Sun.

Kerens, Texas, March 12.—A message was received here Monday night notifying relatives of the sudden death of George A. Smart, age 52 years, a pioneer resident of Canadian, Texas, who passed away at his home about 9 o'clock p. m. Monday. Mrs. Anna Owen and Mrs. Mary Kimes left Tuesday morning for Canadian in answer to the telegram. Mrs. Anna Williamson, sister of the deceased was not able to make the trip on account of illness.

Mr. Smart has resided in Canadian about thirty years and was a well known man in both business and social circles. He has many friends in Kerens who are grieved at his sudden demise. He is survived by a wife, two sisters, Mrs. Mary Kimes and Mrs. Anna Williamson, Kerens, and an aunt, Mrs. Anna Owens, also of Kerens.

BLOOMING GROVE PEOPLE PREPARING FOR FARM MEETING

Putting their thoughts and efforts behind the better farming program to be given on the R. R. Massengale farm next Wednesday, March 16, beginning at 10 o'clock in the morning, business men and farmers of Blooming Grove had a splendid meeting Friday at 7 p. m. Dudley George, editor of the Blooming Grove Times, commenting on the meeting at the Chamber of Commerce Saturday morning, said that the luncheon was attended by some thirty citizens and that they were expecting to have a fine community representation at the all-day farm meeting Wednesday.

The Blooming Grove Luncheon Club, of which Otis Cole is president, has been an active factor in all matters for the betterment of the Blooming Grove community. Henry Gentry, county agent, who is arranging the four all-day farm programs in various parts of the county next week, and Roy Christian, secretary of the Chamber of Commerce, were scheduled for the Friday night meeting but got stuck in the mud at Barry. After more than an hour's effort of fighting the mud, the two Corsicans hurried a team of mules and a Ford car and managed to get back home, but missed the meeting. "Mud roads are surely hard on community fellowship and farm programs," declared the county agent.

NEW GOLD BOOM TOWN IN NEVADA RESTS UPON GOLD

By Associated Press.

Tonopah, Nev., March 12.—Evidence that Weepah, new gold boom town northwest of here, rests on a golden foundation, was plentiful here today after its discovery had given demonstrations to skeptical arrivals.

While 200 persons looked on, an Oakland newspaper reporter, guided by Frank Horton, owner of Weepah's principal claim, dug his first into the earth and pulled out as much rocky soil as his hand could hold. A San Francisco newspaper man crushed it, and it was panned by Horton. It produced two tabloids of gold.

Thirteen ore sacks filled as the result of leisurely picking on the claim, stood nearby. Each contained about 80 pounds of ore. Horton said each sack would produce \$1,800 worth of gold.

Prospectors Are Astounded.
Fred Gilbert, seasoned young "desert rat" who recently sold a claim 12 miles from Weepah to New York interests for \$100,000 and who not so long ago found ore near here which produced \$12 in gold to the pound, declared after seeing the find that he "never would speak of high grade ore again."

Sourdoughs and prospectors who have ranged from the Yukon to Peru and from Cripple Creek to Hudson Bay, looked on and said they never had seen the like before.

Weepah today began to blossom forth as a real town. Its first "emporium" hung out a sign reading: "Water \$2 a barrel; Gasoline 50 cents a gallon; Ham and eggs 50 cents; white mule 50 cents a drink, chaser free."

So far as blooming into a regular town, Weepah is under a serious handicap. No one will work for \$10 a day at carpenter work while there is the prospect of becoming rich overnight by hunting gold. There is no lumber in the camp with which to build.

Brokers and Promoters Busy.
Brokers, organizers and promoters are working feverishly, doing their best to get "the holds" before "big money" comes in and drives things out of their reach.

Their favorite method of closing a deal is to arrange for spot cash payments for stock, with deferred payments extending up to six months.

Stock in any company that happens to be incorporated is sought in a clamor.

Printing presses here are working day and night printing gold sealed certificates. New companies are incorporated by telegraph. The first company organized worked so fast that 200,000 shares in it had been sold before announcement of the incorporation appeared in the newspapers.

Moving Houses In.

Scouts were out today looking for an architectural nucleus for Weepah. They don't want carpenters, masons, bricklayers and other building trade artisans. Building is too slow a process. They want houses already built, and they are finding them.

Here the procedure is to locate a small shack, buy it at any price, hoist it on a big truck and scout for Weepah.

MOTHERS

Watch for symptoms of worms in your children. These parasites are the great destroyers of child life. If you have reason to think your child has worms, act quickly. Give the little one a dose of two White's Cream Vermifuge. Worms cannot exist where this time-tried and successful remedy is used. It drives out the worms and restores the rosy hue of health to baby cheeks. Price 35c. Sold by Lee Drug Company.

ELECTION FOR COUNTY SCHOOL TRUSTEES.

State of Texas.
County of Navarro.
To Whom It May Concern:
Notice is hereby given that there will be an election held on Saturday, 2nd day of April, A. D. 1927 in each and every school district at the school house thereof in Commissioners' precincts three and four, and the polls in said district will be opened at 8 a. m. and closed at 6 p. m. on the said day for the purpose of electing one County Trustee for each of said Commissioners' precincts three and four.

Said election shall be held at the same time, at the same place and by the election officers appointed by the district school board to hold the election of trustees in the common school districts.

Only qualified voters of common school districts are permitted to participate in the election. The County Judge will receive from any person names for the office of County School Trustees. These names must be in the County Judge's possession one week before said election. One week prior to said election the county election board will canvass the names and prepare ballots in accordance with the form of ballots described by the State Superintendent of Public Instruction.

Witness my hand and seal of office, this 11th day of March, A. D. 1927.
(Seal) WARREN HICKS,
County Judge, Navarro Co., Texas.

STEAM ROLLER IS USED IN ORDER TO GET BILL THROUGH

By Associated Press.

Austin, March 12.—Using steam roller tactics, proponents of the House tobacco tax bill snatched it from the jaws of apparent defeat and finally passed it, 61 to 50, at 1:17 p. m. today.

Supporters of the bill had practically given up hope a few minutes before passage, in deference to the mistaken understanding that two-thirds vote would be necessary for the bill's consideration after beginning at 12 noon of the 72-hour final period before sine die adjournment. It was later shown, however, that the bill required only a majority vote for consideration, being on third reading. Scattering victory, proponents voted solidly on every question leading up to final passage, yelling "Pass the steam roller."

The bill is designed to produce about \$2,000,000 for the public schools. One cent on each 10 or fraction thereof of the purchase price of all tobacco would be levied. The bill now goes to the Senate.

By Associated Press.

Austin, Texas, March 12.—Threat of death crept upon the tobacco bill today at noon as its opponents conducted a virtual filibuster in the House to bridge the time intervening between an attempt to force a vote and the beginning of the 72-hour period, prior to sine die adjournment during which a seemingly impossible two-thirds vote would be required for consideration.

With the House clock turned back an hour so that 12 o'clock noon, opening of the final 72 hours, actually was 1 p. m., Representative Keaton, who succeeded the expelled F. A. Dale, attempted to bring up the tobacco tax bill as his "suspension measure," for which only a majority vote would be necessary to consider.

Confusion broke loose and numerous points of order were fought. Confusion flew about the floor as to how the clock happened to be tardy. A new clock had been installed this morning.

Moodv Signed Court Measure Saturday

By Associated Press.

Austin, Texas, March 12.—Governor Moody today signed the administration bill providing for continuous session the year round of the Courts of Civil Appeals, provided judges each shall receive two months vacation.

The Senate bill creating the county court at law in McLennan and a Senate concurrent resolution requesting Herbert Hoover to be present at the meeting of the East Texas Chamber of Commerce April 20 and 21 in Tyler, also were approved.

License Fee Bill Held Up.

By Associated Press.
Austin, Texas, March 12.—Conflicting theories of taxation, which delayed the gasoline tax bill for eight hours on the floor of the Senate yesterday caught its companion measure, the license fee bill, in the Upper House today and the Senate spent a whole morning on amendments without reaching a vote on the bill.

TERRIBLE PAIN

Alabama Lady Tells How She Obtained Relief by Taking Cardui. Feels Fine and Enjoys Life Now, She Says.

Talladega, Ala.—Mrs. Mary Hardy, 406 Henderson Avenue, this city, says that seven years ago she "got down sick" and was unable to attend to her household.

"I have never been so weak before or since," she says. "I had a terrible pain in my side—so sore in my side and the lower part of my body.

"Across my back ached, and I was so nervous I couldn't stand up. I had just about given up when some one who came to see me began talking about Cardui. This caused me to get it. I took about two bottles before I saw much improvement.

"After this, though, I picked up right away. I slept better at night. I was hungry, enjoyed my food, which I hadn't done for some time. The pain and soreness gradually left my side. I regained my strength. I took about six bottles and left off for awhile, then took two or three more. . . I feel just fine, enjoy life and can work now, too."

Cardui is purely vegetable, and contains no harmful drugs. It has helped thousands of suffering women and should help you, too. NC-168

G. W. BRILLHART IS NOT ONLY GETTING PLEASURE OUT OF FARMING BUT MAKING MONEY

G. W. Brillhart is not only a successful building contractor but he is also a successful farmer. Facts and figures on his eight and one-half acres he has in cultivation will bear out the statement that farming pays if properly managed. Mr. Brillhart is very enthusiastic over his farming activities and in addition to the actual cash accumulated on his year's work he says he has had at least \$5,000 worth of fun.

Mr. Brillhart says "you can make money on anything you undertake by doing it right but you can't make money by planting and sitting in a rocking chair and waiting for it to grow—you have to work and work hard."

In talking about his farming venture Mr. Brillhart points out that the gross receipts on his eight and one-half acres of cultivated land amounted to \$1,548.91 with the expense of operation placed at \$836.60 leaving a clear money profit of \$712.31. This does not include provisions for the farm table and his town house for he also raised a large garden from which nothing was sold, the vegetables being given to the men working on his farm and used at home.

Here is Mr. Brillhart's own story on how to be a successful farmer or "rancher" for he terms his eight and one-half acres his ranch.

Potatoes Pay.
"My potato patch was ninety feet by 120 feet which is considerable less than a quarter of an acre. This plot of ground produced 2,137 pounds of Irish potatoes, which is about thirty-five bushels. I sold \$98.16 worth of these potatoes and the men working for me and ourselves had potatoes all summer. This will figure about \$440.00 per acre. This year I am planting one and a quarter acres in North Dakota certified potatoes.

"I also made 198 bushels of corn on three acres and sold \$166 worth of roasting ears and put 135 bushels in the crib, by weight, and figuring this at seventy cents a bushel, which was the price at the time, amounted to \$95.55. To make this corn and crib it cost me \$97.55.

Sorghum and Cotton.
"One hundred and twenty-two bales of sorghum averaging eighty pounds to the bale were also produced from three quarters of an acre. I had two cows, a heifer and a calf and a male to feed. I have enough of this sorghum in my barn to last me next winter. I made two bales of cotton on three and three quarters acres, one of the bales weighing 572 pounds and the other weighed 560 pounds making

a total of 1132 pounds of lint. Had I poisoned when the cotton was putting on squares I would have made a bale or more to the acre. I could count twenty-five to thirty-five dead squares on the stalk caused by boll worms. This was my first venture with cotton and I did not know it. I still have fifteen cents I will sell it. The cotton is strict middling and the cost of making the two bales, including picking, ginning and storing and all labor amounted to \$126.35. But I had 1898 pounds of seed which I traded on meal and bulls at the rate of \$28.00 a ton.

"I had thirty-one hens. Now here is a money maker. Last spring I raised 122 chickens. I usually figure on raising from seventy-five to one hundred for my own use but now I have seventy hens with the pullets and I am going to raise 300. I sold some pullets at \$2.50 each and could have sold more but kept the remainder for my own use. The forty extra pullets I have, I value at \$150 each. They are full blood Rhode Island Reds. I sold eggs and chickens amounting to \$226.40. I bought \$71.00 worth of chicken feed.

Three Brood Sows.
"I have three brood sows and during 1926 I sold \$395.00 worth of pigs and shoats. I bought, figuring my corn at sixty cents a bushel, feed amounting to \$150.30 and still have three broods left which have been bred again. "About four years ago I started

with a six weeks old calf which was given to my wife. This cow has had two calves, full sisters, and her first calf had a heifer calf December 13, and the other heifer will be a cow in July. In ten months the cow brought us \$180.50 for butter and buttermilk besides what we had for our own use. My feed bill for 1926 amounted to \$83.00 to feed all.

"I sold \$81.00 worth of peaches out of my four year old orchard of fifty-nine trees. The peaches were wonderful. I also sold \$30.00 worth of dewberries on a little more than an eighth of an acre."

Mr. Brillhart is a strong believer in diversification and the above figures evidence the amount of success he has made in the operation of his "ranch," which is located about one mile north of Corsicana on the Country Club road.

Must I Continue to Suffer the Unbearable Itching?

Are you one of those unfortunate ones who are going through life suffering with a skin disease, making you uncomfortable, making you less efficient, interfering with your working hours, ruining your sleep? You may have tried many things without relief. Why not try S.S.S.? For more than 100 years it has been giving relief in many forms of skin disease. Thousands of letters of gratitude prove its worth.

"I feel so happy for what S.S.S. has done for me that I want others to know about it. I suffered twenty long years from eczema. At times the itching was unbearable. During that time, I used all kinds of salves without receiving any real benefit. After taking six bottles of S.S.S., I was cured of this dreadful disease. I recommend S.S.S. to anyone suffering from eczema, because I cannot praise it enough for what it has done for me." Cleophas Forde, Soldiers and Sailors Home, Quincy, Ill.

S.S.S. is purely vegetable. It is extracted from the fresh roots of medicinal plants and herbs and gives to Nature what she needs in building up so that your system throws off the cause.

S.S.S. is sold at all good drug stores in two sizes. The larger size is more economical.

IS THERE NO RELIEF FROM SKIN TORTURE?

Seniors of Kerens School To Present Their Second Play

Special to the Sun.

Kerens, Texas, March 12.—The Senior play, "M. H. Ado About Betty," a three act comedy, which was to have been presented at the high school auditorium Thursday night, has been postponed until Tuesday evening, March 15. This play is under the direction of Mrs. J. J. Hendricks, and will be the second appearance of the Seniors this season. Twenty-four high school students will participate in this three act comedy which includes two choruses and costume readings. The Kerens high school seniors with Miss Ruth Smith as its leader will again be one of the main features for the evening's program. This promises to be bigger and better than the first play of the season, "Lovers Quarrel," continued at Dancing Academy."

"Corsicana Has It."

OVER THOUSAND IN ATTENDANCE AT FIRST BAPTIST S. S.

SUBSTANTIAL INCREASE IS SHOWN OVER PREVIOUS SUNDAY

Surpassing previous records, the attendance at the First Baptist church Sunday School Sunday morning amounted to the grand total of 1,068, according to officials Monday. The attendance at the same time in 1925 was 567, slightly more than one-half the number Sunday. The Sunday School attendance at the same date in 1926, one year ago, was 587.

Last Sunday, March 6, the attendance was 924, showing an increase in one week of 144 persons.

Following is the attendance by departments:

Adult, 281; young people, 163; intermediate, 116; juniors, 140; primary, 107; beginners, 56; cradle roll, 46; mission, 150.

Collection Sunday at the Sunday School amounted to \$564.65. The church has an unique way of financing the church budget through the Sunday School and there were 1,002 envelopes turned in at Sunday School yesterday.

The Pals Class was the leader Sunday with an attendance of 76. The Althean Class was a close second with 70. The business men's class registered 56 as did the T. E. L. Class. Johnny Pierce's class showed an attendance of 42. The championship basketball Sunday School team was sponsored by the Pals and the players of the pennant winner came from Pierce's class.

Sunday night, there were 303 present at the meeting of the B. Y. P. U.

It was stated Monday that four organized classes were over-running their class rooms and propositions are afoot for the building of more room. A temporary building and the pastor's old home will be converted into quarters within the next few days, it was intimated.

Stop That Itching
Use Blue Star Soap to clean the affected parts, then apply Blue Star Remedy. It penetrates the skin, kills out the germ, stops the itching at once, and restores most cases to a healthy condition. Eczema, Tetter, Scalded Head, Poison Oak, Ringworm, Sore Blistered Feet, Sunburns, Old Skin Sores—all of these have yielded to its wonderful healing power. 60c and \$1.00 a jar. Soap 45c.

LARGE CROWDS AT ALL SERVICES OF FIRST METHODIST

PASTOR DELIVERS SERMON ON INTERESTING SUBJECT AT EVENING HOUR

There was a total of 655 present at the First Methodist Sunday School yesterday. This, compared with 620 last Sunday shows an increase of 35 and compared with a total of 477 the same Sunday last year shows an increase of 181.

There were 57 present in the Weiler Bible Class. This, compared with 59 last Sunday, shows a loss of two, but compared with 31 present the same Sunday last year shows an increase of 26.

Beauford Jester, who was to have taught the class, introduced J. T. Newsum, who took the lesson in charge. Mr. Jester explained that he had a severe cold.

In the adult department the program was under direction of the Mothers' Class, with Mrs. R. B. Mitchell in charge and consisted of a reading by Master Bill, Rochelle, a piano and violin solo by the two little sons of Mr. and Mrs. R. B. Mitchell, and the reading of a prayer by Mrs. DeArmon.

Mrs. Mitchell made a short talk, the theme being the proper training of children and Rev. Mr. Culver made a strong talk on the same subject.

Wiley Harding, who presided over the adult department in the absence of A. A. Allison, announced that on next Sunday the teachers in the adult department would have charge of the program with Mrs. Geo. T. Jester and Sam Jackson looking after the details of the program.

At the morning hour, Rev. Mr. Culver preached, using as his subject "The Greatest Human Achievement." Miss Maude Smith sang a solo and the choir rendered an anthem.

Rev. Mr. Culver in his announcements stressed the importance of all church members attending the Wednesday night prayer service where each Wednesday night the church is discussing plans for the coming revival that will start in April.

At the night service the choir sang an anthem, and Rev. Mr. Culver preached from the theme, "If I Only Had One Sermon to Preach."

This subject was handled by several ministers of the city and was in conjunction with a move by the Church Advertising Department of the International Advertising Association with headquarters in New York and was preached at the request of the local Advertising Club.

The text selected by Rev. Mr. Culver was John 3:16, "For God so loved the world, that He gave His only begotten Son, that whosoever believeth in Him should not perish but have everlasting life."

The music at both hours, under the direction of Edward F. Hearn was especially well-rendered. Mr. Hearn and his choir are giving some worthwhile music and the music alone will repay one for attending services at this church.

The congregations were large at both morning and evening hours and much interest manifested at both services.

Among the announcements made by Rev. Mr. Culver were the regular monthly meeting of the board of stewards Monday night at 7:30 in the ladies' parlor of the educational building and the training school for all week, starting Monday night at 7:30 in the educational building at which time Hon. J. Adams Puffer of Boston, a noted authority on youth, would speak. The general public is invited to these lectures.

FROST ORGANIZES CEMETERY ASS'N; OFFICERS NAMED

Frost, Texas, March 14.—At a meeting of interested citizens here Monday, the "Frost Cemetery Association" was formed and the following were elected as the board of managers for one year:

Mrs. H. H. Stephenson, Mrs. S. O. Iyer, L. A. Morgan, J. P. Johnson, J. M. Beene, L. A. Sanders and J. M. Smith.

The following officers were elected:

L. A. Morgan, president; L. A. Sanders, vice president; J. P. Johnson, secretary-treasurer.

A number of standing committees.

BAPTISTS BREAK ATTENDANCE RECORD AT SUNDAY SCHOOL

The Baptist are jubilant today over their Sunday School attendance yesterday, the attendance at the First Baptist Sunday School being the largest in the history of the church according to Paul Harper, religious director. There was a total of 1,068 in the Sunday School and in the Pals Class that has a membership drive the attendance was 76.

SHORT COURSE FOR FARMERS WILL OPEN AT PURSLEY TUESDAY

FIRST DAY'S MEETING WILL BE HELD AT GEORGE WEAVER FARM

With the prospect of fair weather and a good attendance is expected at the first of four all-day better agricultural programs for Navarro county which will be held Tuesday at the George Weaver farm near Pursley, beginning at 10 o'clock.

Well known Texas specialists are being brought to Navarro county for these programs which are to be held at Pursley, Blooming Grove, Richland and Roane on successive days. Farmers and their wives of the several communities are urged to bring their lunches and spend the day. Corsicana business men interested in farming are also invited to visit some of the meetings.

Arrangements for the short courses have been made by Henry Gentry, county agent, and Miss Elma Lawson, home demonstration agent.

SEGREGATION LAWS OF LOUISIANA HELD INVALID BY COURT

NEW ORLEANS ORDINANCES REGARDING PROPERTY IN CERTAIN DISTRICTS KILLED

By Associated Press.
Washington, March 14.—Louisiana and New Orleans segregation ordinances, stipulating conditions under which residential property may be occupied by whites and negroes in communities where the opposite race are in the majority, were declared invalid today by the Supreme Court.

Under the ordinances owners of property have been required to obtain the written consent of a majority of persons in a community before renting for residential purposes to persons of the opposite race.

Benjamin Harmon, a negro who sought to convert a house into a two apartment flat, with the intention of renting part of it to negroes, was enjoined and the State Supreme Court sustained the law, notwithstanding Harmon's contention that the restrictions were invalid and unconstitutional.

The Federal Supreme Court reversed the lower courts today on authorities cited.

DIRECTED VERDICT OF "NOT GUILTY" IS ASKED FOR SINCLAIR

DEFENSE ATTORNEY CLAIMS DEFENDANT HAD NOT BEEN SWORN AS WITNESS

By Associated Press.

Washington, March 14.—A directed verdict of "Not Guilty" was asked for by the defense today in the contempt trial of Harry F. Sinclair.

In arguing the motion before Justice Hinz in the District of Columbia Supreme Court, George F. Hoover, chief counsel for the defense of the Tea Pot Dome naval oil reserve, declared there was no evidence to show that Sinclair had been sworn as a witness before the Senate Oil Committee at the time he refused to answer additional questions.

"Mr. Sinclair was not under oath and not a witness," Hoover said. "So he could not have violated the section of the statute under which the indictment here was returned."

Replying for the government, District Attorney Gordon said Sinclair was legally summoned and did not challenge the subpoena or his method of serving when he appeared before the committee and refused to answer. Gordon argued that under the contempt statute there did not have to be a "willful" refusal to answer questions.

The body of Frank Wall, aged 21 years, who was found dead in his bed on the Hampshire 14 in the oil field Sunday morning at 6 o'clock, was forwarded to Lumbago, Texas, Monday afternoon on the Chicago & North Western.

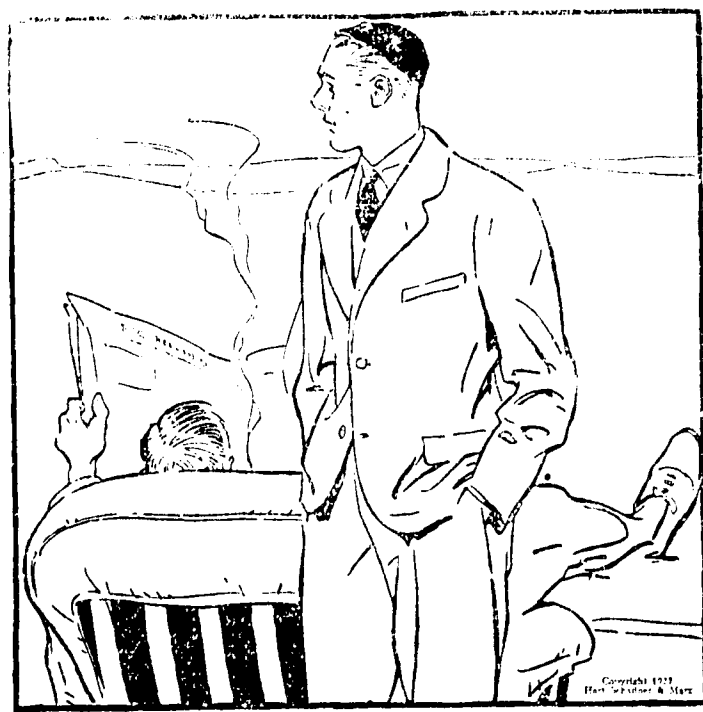

The body of Frank Wall, aged 21 years, who was found dead in his bed on the Hampshire 14 in the oil field Sunday morning at 6 o'clock, was forwarded to Lumbago, Texas, Monday afternoon on the Chicago & North Western.

An inquest was held over the body Sunday by Sam B. Jordan, Justice of the Peace, and death from natural causes was pronounced. It was stated that the deceased was subject to asthma and had a weak heart.

Mrs. Mary Chambers of Lampasaca, mother of the deceased, was here Monday and took charge of the body.

INTERSCHOLASTIC LEAGUE PLANS ARE REPORTED COMPLETE

At a meeting of the directors of the various departments of the Navarro County University of Texas interscholastic league held at the office of Andrew G. Steele, county superintendent, in the Navarro county court house Thursday night at 7 o'clock, plans were made for the holding of the county meet at the State Orphan's Home and the L. O. O. F. Home, Saturday, March 26. All contestants are expected to be at the State Home promptly at 9 o'clock Saturday morning when the tournament will get under way.

All cups held by schools are expected to be sent to the county superintendent's office not later than Friday, March 18. Directors General E. L. Fletcher announced Thursday night.

The following instructions are being sent out to the various schools who have entered the meet:

All visitors are expected to be on the grounds at 9 o'clock.

Girls' volleyball teams will meet at 9 o'clock in front of the boys' building to draw for places.

Junior girls' indoor baseball teams will meet at 9 o'clock on the south side of Ward school building. It will be necessary for each team to have a faculty member with them as coach. Games will be played strictly as to the rules.

Junior boys' indoor baseball teams will meet at 9 o'clock on east side of tennis court. They will be expected to have faculty coach.

Tennis teams will meet at 9 o'clock on tennis court to draw for places. Please do not fail to bring extra rackets, no extras will be furnished. After drawings boys will go to L. O. O. F. courts for games.

Track and Field.

All track and field coaches will report with teams at 9 o'clock on the track and there will be furnished with schedules of each event.

Note—Please bring your own track equipment as far as possible as nothing will be furnished other than vaulting pole, discus, shot, pike and javelin.

All debaters and coaches will report with teams at 9 o'clock at the high school study hall in the basement of the main building to Miss Reynolds, director, and will be directed to the debate rooms from there.

Extemporaneous speakers will report in the English room of the high school building at 9 o'clock. All essay, writing, contestants will report in Room 2, high school building, at 9 o'clock and will be directed to rooms.

All declaimers will report in the high school auditorium at 9 o'clock. Spelling contestants will report in Room 2, ward school building, second floor, at 9 o'clock and be directed to rooms.

All music memory contestants will report in Room 1, ward school building at 9 o'clock, with pen, ink and paper.

Arithmetic contestants will meet in Room 4, ward school building, at 9 o'clock with pencil and paper.

All directors will be expected to be on the ground on time with their schedules made out. All directors will be responsible for judges, grading of papers, etc.

All cups are expected to be sent to county superintendent's office not later than Friday, March 18.

The following firms and individuals contributed toward the fund to provide the awards and expenses of the interscholastic league meet for Navarro county, March 26.

Corsicana Chamber of Commerce, Collins Street Bakery, Corsicana Daily Sun, City Book Store, Jackson Bros., Big 4 Shoe Store, Boynton & Calkins, A. D. Genecov, Golden Bros., Corsicana Lumber Company, Whiteside Brick and Lumber Company.

Reflections For the Bride-Elect.
Oh what has the future in store for me.

Of sorrow, or joy or pain;
Will it be like a song of mirth and glee.

Or a sad and sorrowing strain,
Will it be as bright and happy and fair.

As sweet fancy is whispering now,
Or shrouded in hues such as storm clouds wear.

To darken the night's pale brow,
My heart is now in its spring-time bloom.

And glad as summer morn;
Will its joy and gladness be changeful to gloom.

When its autumn cometh on?
These questions I ask of thee, dear Lord.

Please answer them all, I pray;
The trust that I wish, that my soul may absorb.

All doubts and fears today,
Deep down in my heart I feel that we.

In love and joy shall abide,
Till our life's work is done, and my lover and me.

Shall into Heaven glide.
—Mrs. E. A. Stokes Fullwood, January 5, 1927.

WELLS CHAMBERS CREEK AREA DRILL DEEPER FOR PAY

The Magnolia Company was reported going deeper on the Hardy No. 2-B, which offsets the No. 1-B, to the south. Good showings were reported to have been found around 1,460 and 75 feet. The Stout No. 1, is also drilling deeper and was around 2,000 feet Saturday.

Garland Kent was bailing the Hardy No. 13, an offset to the Magnolia Hardy No. 1-B, to the east, was drilling plus Saturday where casing was set at 1,248 feet. The Kent Hardy No. 14, an offset to the north of the Magnolia Hardy No. 1-B, was drilling around 1,000 feet Saturday morning.

The Humble Oil and Refining Company was reported running casing on the Elliott & Clark No. 1, near Jacksonville, preparatory to setting casing around 3,840 feet. Good showings have been found in the Elliott & Clark No. 1, and is creating considerable excitement in East Texas.

The Humble Company's Southern Pine and Lumber Company's well near Palestine was drilling in shale around the 1,532 foot level.

Texas Company's Cheney B-1, south of the Powell field, was reported to have struck water sand at 3,026 feet.

Drilling of oil wells were coming on the Van Hook, Stubbs No. 1, in the Cheney area around 3,015 feet. The contract on this well calls for a drilling of 3,200 feet.

CONGRESSMAN PRINTS STATEMENT REGARD ALLEGED CONDITIONS

By the Associated Press.

Washington, March 15.—Charges that the Mexican government through its Ambassador here, and its Consul General in New York, had spent nearly \$2,000,000 in an effort to discredit President Coolidge and Secretary Kellogg, and that anti-American literature could be had for the asking at the New York consulate, are made by Representative Gallivan, Democrat, of Massachusetts, in an issue of the Congressional Record just off the press.

The charges, which served to recall reports, later denied, that Mexican-relied propaganda against the United States was the subject of secret correspondence recently exchanged between the two governments, were enumerated in a long statement which contained quotations from what the Representative termed a "printed insult."

"For the asking," he said, "you can get—or could up to a few days ago—this printed insult by application at Elias's consulate, or by mail, and of this I have sworn and documentary proof."

Elias is Arturo Elias, Mexican consul general at New York, whom Secretary Kellogg recently accused would be promptly recalled by Secretary Kellogg.

Impelled by Duty Alone
The Representative said he was impelled by duty to bring the situation to light to demonstrate the

TEXAS AND SOUTHWESTERN CATTLE RAISERS ASSOCIATION MORE THAN HALF CENTURY OLD

By Associated Press.

Fort Worth, Texas, March 12.—With the organization launched on its second half century the Texas and Southwestern Cattle Raisers' Association will celebrate its 51st anniversary March 15, 16 and 17 at El Paso. Some of the outstanding figures of the nation in live stock and meat affairs have places on the program.

Dr. John R. Mohler of Washington, D. C., chief of the United States Bureau of Animal Industry, who has been at the fore in the work of the live stock industry for a quarter of a century, will be among the speakers. Oakleigh Thorne, prominent New York State beef cattle breeder and chairman of the Better Beef Association that is undertaking to acquaint the American housewife with the kind of meat she is placing on her table through the medium of a certified stamp on every cut of beef or meat, also will speak.

President D. A. Millett of Denver, president of the National Live Stock and Meat Board, which is engaged in an endeavor similar to that of the Better Beef Association but with a program broader in scope, is among the others on the program as are Oscar Mayer, of Chicago, president of the Institute of American Meat Packers, Luis De Leon, secretary of agriculture in the cabinet of President Calles of Mexico, Charles A. Fisk, president of the Texas Bankers' Association, Governor Dan Moody of Texas, Congressman Claude B. Hudspeth of El Paso, and Donald C. Conn, manager of the Public Relations section of the American Railway Association.

The Texas and Southwestern Cattle Raisers' Association is peculiar among American institutions and its personnel includes hundreds of men whose forbears beat back the Indians and buffaloes, string the first wire fences and plowed the first furrows in Texas. President R. M. Kleberg of Corpus Christi, himself is a grandson of a cowboy who fought at San Jacinto with Sam Houston's forces on his father's side and on his mother's side he is the grandson of the late Captain Richard M. King, first and greatest of the cattlemen whose empire ranch in South Texas still is the largest privately controlled cattle ranch in the world.

Almost half a century before the co-operative idea was introduced in American agriculture, the Texas Cattle Raisers' Association of the Northwest and of South Texas was

"essentially" of an inquiry, in view of the failure of his resolution seeking information of the subject from the State Department.

Coincidental with publication of the statement, Chairman Borah of the Senate Foreign Relations Committee, added a new note to the American-Mexican controversy by serving notice that no amount of criticism would swerve him from the course he has pursued in connection with it.

He said there were powerful interests which would like to see "a complete break with Mexico," and while he had no desire to see the oil companies or interests deprived of their legitimate rights, he disagreed with the policy which would seek protection by a breaking off of relations.

operating a co-operating enterprise.

One of the greatest works of the Association has been the maintenance since 1883 of an extraordinary clearing house through which the proceeds from the sale of thousands of cattle have been returned to rightful owners, the force of 35 inspectors in the field at round-ups and shipping pens and at central markets constantly is at work inspecting the thousands of brands that pass before their eyes. These inspectors are authorized to claim cattle bearing the marks and brands of members of the Association and the sales money is held up on these animals by the Association until the ownership is established when remittance is made to the lawful owner.

Since the inspection and clearing house services was instituted inspectors for the Association have claimed for members 113,385 head of cattle and have been returned to the members \$3,705,188 up to March 1 of this year.

The clearing house system operates not only to restrain and prevent thefts but it serves to properly distribute receipts from the sale of range cattle that have strayed from their owners' boundaries and become mixed with another man's cattle. Frequently one ranchman ships cattle that he knows belongs to his neighbor and does so because that affords the most convenient way to reimburse the owner.

Mr. Kent stated that the Kent Hardy No. 12, an offset to the Kent Hardy No. 10, had been made a small producer and would be put on the pump soon.

The Texas Company was drilling in sand on the Cheney B-1, south of the Powell field at 3,056 feet.

Casing has been set on the Elliott & Clark Humble Oil and Refining Company No. 1, near Jacksonville at 3,840 feet. Good showings of oil have been found in this well and has created considerable excitement in the East Texas district.

The Humble Oil and Refining Company Southern Pine and Lumber

FUNERAL SERVICES FOR L. Q. WHITE SUNDAY AFTERNOON

Funeral services for L. Q. White, age 69 years, who died Saturday night, were held at 3:30 Sunday afternoon from the home of his son, Fred White, at 1918 West Collin street and were conducted by Rev. J. Howard Williams, pastor of the First Baptist church. The Masons had charge of the service at the grave. Interment was in Oakwood cemetery.

Mr. White is survived by his wife, four children, Fred White, J. Calvin White, Mrs. T. L. Shields and Mrs. A. G. Lynd all of Corsicana, and four sisters, Mrs. J. C. Brown, Pleasant, Mrs. J. D. Simmons, San Angelo, Mrs. W. M. Stone and Mrs. Jodie Daniels, both of Corsicana, route 3.

The deceased was a native of Navarro county, his parents, Mr. and Mrs. Naz White, having settled in this county in 1848. He was a well known farmer and the beautiful floral offerings attested the esteem in which he was held by his many friends.

Mr. White always took an active interest in all affairs for the advancement of the community in which he lived. He was a deacon in the Baptist church at Eureka many years and was a member of the Masonic lodge.

A large concourse of friends followed the remains to their resting place.

READ THE WANT ADS

TWO PRODUCERS ADDED TO SHALLOW FIELD EAST OF CITY

While no official information could be learned at the Magnolia Petroleum Company office it was reported by a reliable source that the Magnolia Hardy No. 3-B had been brought in a producer and will be put on the pump.

The Magnolia Stout No. 1 was recently unofficially reported to be 2,000 feet deep. This was reported to be incorrect and the latest information was that the well was being washed out. No information could be gained at the Magnolia office, but men working in the field stated that the well will be drilled to the 1,750 foot sand where a producing sand is thought will be found.

Garland Kent stated Monday that his crew was going deeper on No. 13, an offset 300 feet east of the Magnolia Hardy No. 1-B, and will set 425 feet of perforated casing from the 1,248 foot level, where casing was cemented. Casing has been set on the Kent Hardy No. 14, offsetting the Magnolia Hardy No. 1-B, 300 feet to the north, at 1,305 feet. The plug will be drilled Tuesday or Wednesday.

Mr. Kent stated that the Kent Hardy No. 12, an offset to the Kent Hardy No. 10, had been made a small producer and would be put on the pump soon.

The Texas Company was drilling in sand on the Cheney B-1, south of the Powell field at 3,056 feet.

Casing has been set on the Elliott & Clark Humble Oil and Refining Company No. 1, near Jacksonville at 3,840 feet. Good showings of oil have been found in this well and has created considerable excitement in the East Texas district.

GIRL'S BASKETBALL TEAM OF ROANE TO ENTER STATE MEET

Announcement was made Monday that the girl's basketball team of Roane will enter the State A. U. basketball tournament to be held at Breckenridge March 17-19.

This team is coached by Miss Ethel Dill of Roane. The team won the county championship last year and they boast one of the strongest basketball organizations in this section.

The girls who will make the trip were as follows: Dorothy Reagan, Ruby Jewel Kemp, Doris Reagan, Jessie Boone, Velma Davis, Sallie Burks, Fay Portwood, Marie Lou Burks, Eulalie Talley and Ellie Mae Frazier. The team will be accompanied by the coach and will make the trip in automobiles.

Ellie Mae Frazier was selected as all county center last year.

Lowry Martin is in Dallas attending an executive meeting of the Texas Daily Press League.

Rev. J. M. Moran, Baptist minister of Hubbard, was a visitor in Corsicana Monday morning.

HARRIS COUNTY MAN SHOT IN ALTERCATION AT FATHER'S HOME

By Associated Press.

Houston, Texas, March 14.—Arnold Hillingiest, 24, was in a serious condition at an infirmary here with a bullet wound in the left side received in a shooting at the home of his father near Hockley Sunday. His wife said she and her husband went to the home of her husband's father Saturday night to spend the week-end and that the visit ended in an altercation in which several shots were fired.

OPERATORS FAIL TO AGREE ON CUT IN OIL PRODUCTION

By Associated Press.

Tulsa, Okla., March 14.—Seminole operators meeting here today failed to reach an agreement for co-operative curtailment of production in the greater Seminole area as recommended by the advisory committee of three recently when a 20 per cent reduction was suggested. Production in the future, the operators said, would be limited only by pipe line and storage capacities.

BILLY PENLAND TO
OPEN HIS REMODELED
DRUG STORE TUESDAY

EVERYTHING NEW AND MOD-
ERN IN EVERY RESPECT
RECEPTION FEATURE

Tomorrow the Billy Penland Drug Co. will open its doors again for business after having been closed for two months following a disastrous fire that visited this popular drug store. After many weeks of remodeling the building from its fire damage this firm will be ready to open with everything complete and span, with an entirely complete and fresh line of drugs, toilet articles, tobaccos and sundry lines attractively displayed in new and electric lighted show cases.

In the celebration of the opening of this new store there will be given an old time opening from 2 to 10 o'clock p. m., and the general public is invited to call. There will be special music for the occasion, together with souvenirs for all who make the store a visit.

In getting ready for business again this firm has spared no expense in bringing the store up to the first class type of drug stores, with new show cases here and there, swinging display cases at intervals dropped from the ceiling, and the general re-arrangement of the prescription department which is most complete, convenient, and protected with enclosures that such a department needs.

Another new and big asset this store has added is a new electric refrigeration plant for its soda fountain, which makes the fountain more sanitary, and its quality of drinks more wholesome.

Mr. Penland deserves much credit for the attractive new store, which is evidence that he has much faith in the future welfare of the city and community in general.

Following the opening of this new store there will be a free demonstration of the popular Elizabeth Arden cosmetics, as well as other attractive features.

The main event of the opening will be the announcement of the giving away of a pretty little Shetland pony to some boy or girl under the age of twelve years. The details of the giving away of this pony will be given out to the children or interested parties if they will call at the store. The pony will be on display in the drug store it is understood, as well as will be on exhibition in various sections of the city from time to time, until some little boy or girl is made happy by getting him free.

While this store will feature all of the lines heretofore carried in stock, which are of the highest quality, there will be several new and attractive lines carried, the King Candies being one of the new featured lines. Much could be said in giving description of the various departments of the store but space will not permit.

"Billy" Penland, as we all know him best, is a real druggist, and has many friends who will congratulate him on his new place of business, and wish him much prosperity in the future operation of his growing firm.

FROST CITIZENS
AFTER NATURAL GAS
FOR THAT PLACE.

Frost, Texas, March 14.—A committee from the Frost Chamber of Commerce several days ago went to Dallas and conferred with officials of the Lone Star Gas Company and Municipal Gas Company relative to the proposed securing of natural gas for Frost.

Surveyors will be in Frost within the next few days to make a survey and plan of the town.

Gas is to be given Italy and it is only a short distance to Frost. The committee in charge of the attempt to secure gas for Frost is R. F. Shaw, Rev. C. B. Diltz, E. A. Patterson and S. O. Hyer.

Fred Mitchell wants more watches, clocks and jewelry to repair. Take it to him. 215 South Beaton.

Aged Woman Buried
Richland Cemetery

Richland, Tex., Mar. 14.—Mrs. O. G. Hargraves, aged 78 years, died early last Monday and the remains were interred in the Richland cemetery Monday afternoon. The services were conducted by Rev. J. M. Gardner, assisted by Rev. C. O. Bauman.

Surviving are three sons, Albert Hargraves, Richland; Ben Hargraves, Mexia; Jim Hargraves, Slator.

Died at San Angelo. Wortham, Texas, March 14.—Funeral services for Othar C. Bounds, aged 34 years, who died in San Angelo Sunday, were held Wednesday here, conducted by Rev. W. A. Saunders.

COW, SOW, HEN AND GARDEN
WILL REMEDY CONDITIONS IN
COTTON GROWING DISTRICTS

To remedy the distressing situation brought about by the loss of buying value in cotton it seems desirable to make changes that will place our agriculturists on a sounder and more profitable basis. The logical starting point for such a program is to provide for the needs of every family on every farm. The minimum requirements in providing a live-at-home program for each family of five would be:

One milk cow, one brood sow, 25 laying hens and an all-the-year-round garden of at least one-half acre.

If these are provided and the surplus production of meat and vegetables conserved for future use by canning, the amount of food purchased from the stores will be reduced to the minimum. It would be advisable if possible to keep more than one cow, to increase the flock of chickens, and also to increase the number of hogs, for the reason that these will produce food products that can be sold to an advantage or exchanged for food products that cannot be produced on the farm.

Farmers should realize the importance of not neglecting the smaller items of revenue which in the course of twelve months period will amount to a considerable sum. Food for the family and feed for the livestock when purchased at the store are high in price. When they are produced on the farm they cost nothing but the seed and labor.

When purchased at the store, the price must include freight, insurance, commissions and profits to the men who handle them. The labor necessary to produce food and feed is on the farm, and the growing of home supplies will not interfere with the care of the cotton crop.

Farm Family Should be Fed. It is more important that the farm family be well fed and well nourished, strong and healthy than it is that the work stock or animals on the farm should be well taken care of.

Yet, unfortunately, in many instances more attention is given to the feeding of the animals than is given to the proper nourishment of the growing children. Experiments conducted by the U. S. Department of Health in cooperation with the U. S. Department of Agriculture on plantations in the Mississippi delta have shown conclusively that screening of houses to keep out mosquitoes reduced the amount of sickness caused by malaria and greatly increased the general prosperity of the community as a whole.

Numerous instances could be cited of improvement in the health of the family due to a change of diet and providing an abundance of proper kind of food. A farm table should be provided with an abundance of proper kind of food, a large part of which can be produced on the farm much more cheaply and of more satisfactory quality than can be secured from the store.

The health of the family and the growth of the children depend in large measure upon a diet which builds and repairs the body tissues, regulates the body process, furnishes energy, and promotes growth and positive good health.

Milk, Fruit and Vegetables. Milk, fruit and vegetables are recommended for keeping the body healthy and preventing disease. Each person should have every day:

Three glasses of whole milk or its equivalent in buttermilk, butter, cottage cheese, custards, creamed vegetables, soups or ice cream.

Two raw fruits or raw vegetables, such as apples, oranges, watermelons, cantaloupe, tomatoes, lettuce, cabbage or onions.

A generous serving of one leafy vegetable, cooked or raw.

A generous serving of oranges or tomatoes three times a week. In addition to milk, fruits and vegetables the family table should be provided with an abundance of meat, eggs, bread, potatoes

and other foods that can, in a large measure, be produced on the farm.

In order to assist the housewife in providing a supply of canned fruit and vegetables sufficient to meet the needs of the family at all times when they cannot be secured fresh from the garden or orchard the following list is recommended as the minimum requirements for a family of five:

Leafy Vegetables—63 cans—This will be sufficient for 5 weeks serving 7 times each week. The remainder of the year fresh vegetables should be secured from the garden. These would include cabbage, greens, lettuce, asparagus, onions, spinach, etc.

Other Vegetables—43 cans—This will be sufficient to serve 7 times a week for 21 weeks. During the remainder of the year vegetables should be secured fresh from the garden or from stored or dried products. This list should include turnips, carrots, okra, peas, corn, beans, cauliflower, etc.

Fruit—176 cans—This will be sufficient to serve 11 times a week for 16 weeks. In addition to canned fruits, a fresh supply should be obtained from the orchard or garden and may include berries, grapes, peaches, pears, cantaloupes, watermelons, plums, and apples. When a supply from the orchard is not available, fruit should be purchased in season and canned or the supply of tomatoes should be increased to make up the deficiency in fruit.

HIGHWAY WORKERS
WORKING ON ROADS
IN NAVARRO COUNTY

The strenuous work on the part of the highway maintenance crews under the direction of county foreman, L. C. Davis, had placed principal roads in the county in smooth shape. It was reported at the Chamber of Commerce Monday morning.

The maintenance crews worked all day Sunday in their efforts to whip roads in shape. They have been giving particular attention to the Dawson and Richland section. Where it was impossible to get into the muddy spots with the regular equipment the crews have filled in and drained the mud away so as to make them easily passable.

The maintenance crews were busy Monday on the Richland Creek approach, putting down a ten inch layer of crushed rock on the muddy side.

According to reports the Trinity river on the Kerens crossing is still impassable.

Phone Fred Mitchell Jewelry Store for correct time—152.

TOBACCO TAX HAS AROUSED OPPOSITION FROM MANY DEALERS

Expressing this viewpoint of local retailers and jobbers handling tobacco, the Chamber of Commerce has sent several telegrams to members of the Senate pointing out objections to the proposed tobacco tax.

Retailers declare that the book-keeping and records incident to keeping tax returns on such small articles as cigarettes and cigars will be such as to virtually destroy the handling of these commodities.

Returning to Business. Sam Daiches, who has been confined to his bed for the past four weeks following an operation, is able to again be at his place of business.

COMMISSIONERS MET MONDAY; MATTERS OF INTEREST COME UP

FORMER TAX ASSESSOR TURNS IN LARGE EXCESS FEES FROM HIS OFFICE

The Navarro county commissioners met at the court house Monday morning at 10 o'clock with all commissioners save Ruben Milligan present.

C. R. Hall appeared before the court relative to the proposed installation of sanitary drinking fountains in the court house but no definite action was taken.

L. H. Elkins, former tax assessor of Navarro county, has turned in the treasury excess fees of 1926 amounting to \$7,224.48 and \$1,018.17 excess fees for 1925, it was reported.

Monthly claims were allowed except as noted on the claim docket. County Auditor J. M. Tullos was authorized to transfer \$219 from the general fund to the hospital fund.

An order was entered upon the minutes of the court about the designation of the Corsicana National Bank as the depository for county funds for the next two years. The application of Allen Calloway, constable, for the appointment of Joe Jordan as deputy constable on a commission basis, was approved.

The application of Judge J. J. Sullivan to have the second Monday of each month instead of the first Monday as the day for holding court, was granted for Justice Precinct No. 1, Place 2.

The quarterly reports of Frank Mitchell, county treasurer, and J. M. Tullos, county auditor, were approved and ordered recorded.

The application of Frank R. Young, county clerk, for the purchase of an adding machine was granted and County Auditor J. M. Tullos was authorized to purchase same.

The court adjourned until Saturday. The majority of the members of the attending the district convention of the county judges and commissioners at Kaufman, Wednesday, County Judge Warren Hicks and Commissioners Jack Megarity and D. T. Collins are on the program.

TRIAL G. S. WILLIAMS FORMER CORSICANA POLICEMAN MARCH 31

CHARGED WITH KILLING OF MAN WHILE ATTEMPTING TO MAKE ARREST

The trial of G. S. Williams, formerly a member of the Corsicana police force, who received two years in his trial here for murder in connection with the fatal shooting of Jack Coker of Ellis county in Corsicana early in 1924 will come up in the Criminal District Court, No. 2 of Dallas county, March 31, according to information secured at the sheriff's office. A number of witnesses here are being summoned for that trial.

Williams, together with Earl Horton, special railroad officer, and Jim Green, Corsicana policeman, were indicted jointly in connection with the alleged fatal shooting of Coker here. The case was tried in the district court here before District Judge Hawkins Scarborough late in 1924 and attracted hundreds at the trial.

Green and Horton were acquitted by the jury which found Williams guilty of manslaughter and assessed his punishment at two years in the penitentiary. A motion for a new trial was granted by Judge Scarborough and a transfer to Dallas county later was effected.

Remains Aged Man Interred Sunday

The remains of John Hannan, aged 98 years, who died at the county farm early Saturday morning, were interred at the county farm cemetery Sunday morning at 11 o'clock. The funeral services were conducted by the Salvation Army.

No near relatives survive. He resided in Pennsylvania until a few years ago when he came to Texas.
